

KHAHLIL GIBRAN HADI

Frontend Engineer | React, TypeScript, Real-Time Systems & 3D Visualization

+62 851-8689-8707 | lil.gibran01@gmail.com | [linkedin.com/in/lil-gibran](https://www.linkedin.com/in/lil-gibran) | github.com/lilgibs | Bekasi City

Frontend Engineer with 3+ years of experience building real-time monitoring, analytics, and digital twin applications for manufacturing and industrial IoT. Specialized in React, TypeScript, and Three.js, with hands-on experience developing Python/Flask APIs, TypeScript/Express real-time services, and containerized deployments on AWS.

TECHNICAL SKILLS

- **Frontend:** React, TypeScript, JavaScript, Next.js, Three.js, Tailwind CSS, TanStack Query, Zustand, Redux, HTML, CSS
- **Backend:** Python, Flask, Node.js, Express, SQLAlchemy, Sequelize, REST APIs
- **Data & Real-Time:** PostgreSQL, MySQL, Redis/Valkey, InfluxDB, WebSocket, Socket.IO, MQTT, Node-RED
- **Cloud & DevOps:** AWS (EC2, S3, RDS, ECR, CloudWatch), Docker, Nginx, SaltStack, GitHub Actions
- **Architecture & Tools:** MVVM, Feature-Sliced Design, Domain-Driven Design, Git, Figma

WORK EXPERIENCE

GONSTERS – Singapore (Remote)

Jul 2025 – Present

Frontend Developer

- Develop and maintain a Digital Twin manufacturing analytics platform using React, Vite, TypeScript, and Tailwind CSS, structured with MVVM and Feature-Sliced Design.
- Build interactive 3D factory-floor models using Three.js, alongside OEE dashboards, heatmaps, production timelines, and machine-monitoring interfaces used by operators and supervisors across 20+ machines and two production lines.
- Integrate frontend applications with Flask REST APIs and real-time Socket.IO streams, using TanStack Query for server-state caching and standardized authentication, timeout, and error handling.
- Develop and maintain Python/Flask REST APIs and PostgreSQL schemas and migrations, alongside a TypeScript/Express real-time service supporting manufacturing analytics, production workflows, SAP integration, and MQTT-to-Socket.IO streaming.
- Manage frontend and backend deployments and runtime operations on AWS using Docker, Nginx, SaltStack, and GitHub Actions, while maintaining architecture, deployment, and incident-response documentation.
- Build and maintain the GONSTERS company profile website using Next.js.

PT. Ragdalion Revolusi Industri – Bekasi Regency, West Java

Aug 2023 – May 2025

Frontend Developer

- Delivered admin dashboards, Andon systems, energy-monitoring platforms, and Human-Machine Interfaces for 10+ manufacturing clients, including NSK, Yanmar, INOAC, Sugity, and Dharma.
- Led frontend development for a real-time energy-monitoring platform with role-based access control and configurable client-specific views.
- Built shop-floor interfaces consuming MQTT and WebSocket streams, keeping machine-status updates responsive under continuous production load.
- Applied MVVM and Domain-Driven Design to maintain a modular, reusable multi-client codebase while collaborating with UI/UX designers and backend engineers.

PROJECTS

Suratan – Premium Digital Wedding Invitation Platform | suratan.id

Dec 2025 – Present

Founder & Full-Stack Developer

- Building a premium digital wedding invitation product for the Indonesian market end to end, covering product direction, brand and content system, and full-stack implementation.
- Built on Next.js with Supabase for PostgreSQL, authentication, and media storage, deployed on Vercel with a custom domain.

EDUCATION & TRAINING

Universitas Gunadarma – Bekasi City, West Java

Sep 2018 – Dec 2022

- Bachelor of Informatics Engineering | GPA: 3.56/4.00

AWS re/Start Program

Mar 2026 – Jun 2026

- Hands-on cloud training in Linux, networking, EC2, VPC, IAM, S3, RDS, Lambda, and CloudWatch

Purwadhika Digital Technology School

Jan 2023 – Aug 2023

- Full-Stack Web Development Bootcamp covering React, Node.js, Express, MySQL, MongoDB, Sequelize, and Mongoose.

CERTIFICATIONS & LANGUAGES

- **Certifications:** AWS Certified Cloud Practitioner; BNSP Junior Web Programmer; BNSP Junior Web Developer
- **Languages:** Bahasa Indonesia (Native); English (Professional Working Proficiency)
